PROFESSIONAL SUMMARY

React Native Developer with 3.5+ years shipping cross-platform mobile apps (iOS/Android) across health, safety, education, and marketplace domains. Proficient in TypeScript, backend development (FastAPI, PostgreSQL), REST APIs, and automated testing (Jest), with a track record of improving app stability, test coverage, and onboarding through CI/CD-driven Agile delivery and AI-assisted tooling (Claude Code, Cursor).

KEY ACHIEVEMENTS

60% → 90% test coverage increase • **~20%** app stability improvement • **~30%** onboarding completion boost • **10+** features shipped on a multi-module platform • **6** production apps published on App Store & Play Store

SKILLS

Languages: TypeScript, JavaScript (ES6+), Python, C++

Mobile: React Native, React.js, Redux, Zustand, React Navigation, NativeWind, MMKV, Push Notifications, Deep Linking

Backend: FastAPI, PostgreSQL, Node.js, Express.js, Firebase, Supabase, REST APIs, GraphQL basics, Socket.IO

Testing & CI/CD: Jest, RN Testing Library, GitHub Actions, App Store Connect, Play Console

Methodologies & AI Tools: Agile/Scrum, Sprint Planning, Code Reviews, DSA, OOPS, Claude Code, Cursor, Prompt Engineering

Tools: Git, GitHub, GitLab, Android Studio, Xcode, Docker, Jira, Figma, Postman

EXPERIENCE

React Native Developer — Dotsquares Technologies

Sep 2025 – Present

- Contributed to **10+ core features** on TeeUPCC, a multi-module golf booking and social commerce platform, including course/event booking, live scorecards, in-app chat, social feeds, food ordering, e-commerce, and subscription services.
- Architected backend services with **FastAPI and PostgreSQL**, including authentication and REST API endpoints for core app features.
- Developed and maintained **HomeSafeAlert**, one of 6 production apps shipped to the App Store and Play Store, using Firebase for auth and push notifications.
- Authored automated Jest test suites and configured **CI/CD pipelines** to automate builds and reduce release-time regressions.
- Modernized a live production app by replacing deprecated libraries and restructuring navigation architecture, **improving scalability and stability**.
- Managed end-to-end release cycles for iOS and Android across Agile sprints, **shipping releases across 6 production apps** to the App Store and Play Store.

Software Developer — DataPecan

Apr 2024 – Aug 2025

- Led end-to-end development of a Music Learning Academy mobile app with **15+ interactive lessons** and teacher-guided workflows, achieving a successful production launch with a **~30% improvement in onboarding completion**.
- Engineered a comprehensive suite of unit and integration tests using Jest, **increasing code coverage from 60% to 90%** and improving overall app stability by **~20%**, including resolving key crash causes.
- Collaborated with product and design teams in two-week Agile sprints to scope, build, and ship features on a React Native + Firebase stack.

Junior Software Developer — Hidden Talent

Jan 2023 – Mar 2024

- Delivered and optimized the GreenValley School mobile application using React Native, supporting academic and communication workflows for students and staff.
- Collaborated with senior developers in an Agile environment to integrate REST APIs and **resolve 20+ critical bugs, increasing platform robustness by ~15%** through consistent sprint delivery.

EDUCATION

B.Tech, Information Technology — Swami Keshvanand Institute of Technology (SKIT), Jaipur Aug 2019 – Jun 2023

CGPA: 8.2 / 10

CERTIFICATIONS

- Claude Code in Action — Anthropic
- AI Fluency: Framework & Foundations — Anthropic
